## HALOSIL

### Raising the Standard for Whole Room Disinfection

The Halo Disinfection System unleashes a new disinfection standard for complex, infection-prone environments. EPA-validated to kill 99.9999% of *C. difficile* spores, along with a broad spectrum of pathogens, Halosil's solution leverages a proprietary hydrogen peroxide-based formula and proven line of foggers, bringing greater efficacy and affordability to whole room disinfection. <https://halosil.com/>

## DIVERSEY

CleanPatch is a simple, cost effective repair system for mattresses and stretchers restoring them to an intact and hygienic state. The FDA-registered and clinically validated solution is available in three sizes, and is designed to repair over 90% of the tears and punctures. At a portion of the cost of a new mattress, CleanPatch provides an immediate repair option to minimize the downtime and associated risks and costs of damaged mattresses.

## CONTEC

### Contec's Laundry-Free PREMIRA Microfiber Mop Pads

Laundry-Free PREMIRA Microfiber Pads provide superior dirt and debris removal compared to laundered microfiber mops. PREMIRA Pads help eliminate cross-contamination risks and are designed to be compatible with most existing

hardware, allowing them to fit into any facility's supply chain and cleaning protocols. [ContecProfessional.com](http://ContecProfessional.com)

## HYGIENA

### Introducing smarter ATP cleaning verification

The new EnSURE Touch analyzes and reports environmental risk data from ATP tests. Reliable and sensitive, EnSURE Touch's simple interface functions like a smart phone and configures to any facility. SureTrend Cloud includes Wi-Fi secure data transfer to cloud-based software and collection by room number, line name, cleaners, and more.
