VALUE-BASED PROCUREMENT

As time in the COVID-19 capsule progresses, how can supply chain professionals leverage common tools of the trade and still focus on value?

SPD MAKEOVERS

What design, devices and equipment should be included in SPD departments to maximize output, optimize performance, streamline workflow and ensure high-quality reprocessing services? HPN highlights the options and gauges how close they may be to implementation.

ROOM DECONTAMINATION

Amid a pandemic, HPN explores the effectiveness and efficiencies of available products and services to clean and decontaminate rooms, and what improvements may be needed in the future.

WOUND & SKIN CARE

Active and innovative solutions for preventing and treating surgical-site incisions, chronic, hard-to-heal wounds, such as diabetic ulcers and other skin care challenges, are explored in this annual feature.

POINT-OF-CARE TESTING

HPN highlights what the future holds for convenient, easy-to- use and quick POC testing products.
